- Check Team(Level 1, Level 2, Level 3)
- Withdraw Balance
- CRUD Bank Accounts
- Check Balance Details (Left Balance, Deposits, Withdraws)
- Commission Details – Level wise commission history
- Task Income Details
- Startup Popup
- About Us
- Invite Friends
- Logout

d. Important Points

- Admin can block and unblock users from admin panel
- Register/Forgot Password using OTP
- Payment gateway same as CashJob
- Amounts from Stable, Daily, Activity, Treasure, and Refers can only be withdrawn. Recharged amount cannot be withdrawn. Need to use wagering to track recharge amount and other earning source amount.
- Admin can make a payment confirm that are pending.
- Users can only purchase up to limited quota mentioned in each earning card.
- Users need to buy stable income just after register and hence can only buy the same Daily Income. For example: If Stable Income 3 is purchased, then the user can only purchase Daily Income 3. Basically Daily Income is dependent on Stable Income.
- Days, Hour Income: For example
07-11-2022 08:30:00 – 07-11-2022 12:00:00
09:10:00 – 10:00:00

5th day at 12 am

- Will the product purchase quota be reset after it is purchased and expired? Don't reset

e. Other Points to be mentioned here

- Spinner: Get Spin from each Refer and spin to get cash reward. Never allow the customer to win the exact spin amount.
- First show 1000 reward. Then give option to spin for say 5 times. Then for the first 4 spins make the user gain close to 1000 say 985, and then in the last spin say better luck next time.

Points to ask:

- Product image in admin panel
- Spin items customization in admin panel
- Level commission update applies to everyone or only to new registrants
- Refer task customization in admin panel
- Achievers CRUD in admin panel
- Real-time stats in admin panel
- Users list in spin envelope.
